PREFACE

This report is one in a series on Soviet Ground Force and logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities; (T) unidentified facilities or tracking activity.

SUMMARY

An explosives storage area is located 12 kilometers (km) north of the center of Krivoy Rog and is probably associated with a training and barracks area 14 km southwest (Figure 1).

The double-fenced area covers approximately 95 acres and contains 16 revetted explosives storage buildings, one transloading building, and one support building. One additional general storage/support building is located on the

rail spur leading into the secured area (Figures 2 and 3).

The installation was covered by [REDACTED]

[REDACTED]
Comparative analysis reveals that the explosives storage building was constructed between [REDACTED]. The continued activity at the trackside docks indicated that this installation has been active throughout the period covered by photography.

DESCRIPTION OF INSTALLATION

Railroad Service

The area is served by two sidings from a spur of the Dolinskaya-Nikolayevka rail line.

Road Service

A secondary probably all-weather road connects this area with Krivoy Rog.

Ammunition Storage Area

The installation contains 16 revetted explosive storage buildings, one transloading building, one general storage/support building, and one support building.

All buildings were present on [REDACTED] coverage, except one explosives storage building constructed between [REDACTED]. [REDACTED] The area appears active on all coverage.
